

## Dual Lens Camera

### Model: SK-V422MR2

V42 is a dual lens camera, which is designed for commercial vehicles and can be applied in various industries.

It is a vehicle AHD high definition dual-lens camera, using 5 infrared LEDs with low power consumption, supports wide-angle, anti-fog, vandal-proof and wide voltage functions.

### Features

1. AHD 2.0 megapixel CMOS.
2. New digital exposure function can achieve good image effects between different light and contrast conditions.
3. High-temperature resistance, work stable under high-temperature operation.
4. Anti-vibration, wide voltage 8V-18V, professional-designed for in-vehicle environment.
5. 2ch cameras; 1080p starlight illumination, in-cab camera supports night vision.
6. High-definition pickups, effective detection range up to 25 m<sup>2</sup>.
7. 2 pieces 3-meter long extension cables, with aviation connector.
8. Installation method: 3M glue double side sticker directly bonded or screwed.

### Technical specification

Model	SK-V422MR2
Imaging device	1/3" CMOS
Focal	3.6mm (Front view) / 2.1mm (rearview)
Angle of view	90° (Front view) / 125° (rearview)
Signal system	PAL/NTSC
Effective Pixels	1920(H)*1080(V)
Resolution	1080P
Frame rate	25/30 Frames

Signal to noise ratio	≥50dB
Digital Noise Reduction	3D
Synchronization system	Internal synchronization
Minimum illumination	0.1LUX/F1.2
Horizontal Resolution	2000TVL
White balance	Auto
Electronic shutter	automatic
Exposure mode	Anti-exposure
Filter switching	External infrared light control switching
Video output	1920*1080 AHD-BNC
Microphone	Support
Operating Voltage	DC12V
Infrared distance	0-3m
Operating temperature	-10℃~+50℃
Housing material	Metal aluminum alloy

## Packing list:

Camera	1
Instruction Manual	1
Hex-key	1

## Product Size

Unit: mm
